Where to Wait While a Patient is in Surgery
 The volunteer at the Surgery Patient Information Desk in the Surgery Services Waiting Room is your contact person while your loved one is in surgery. Check in with the Surgery Patient Information Desk when you arrive. It is located close to the operating rooms, in the lobby near the main entrance. It is important that the volunteer knows where to contact you. The Surgery Patient Information Desk is staffed from 8 a.m. to 4 p.m., Monday - Friday. At other times, please check with Guest Services or Admitting.

Pet Visitation
 We realize that pets can be important members of your family and that continued contact with family pets can contribute to a sense of well being and hope. We believe that the presence of pets who are loved and who can give love unconditionally in return can help make this a healing environment for our patients. Therefore, we support bringing family pets into St. Charles Redmond. In order to maintain cleanliness and order, and to make this a healing environment for all of our patients, we do ask that you follow a few basic rules. Please ask your caregiver or Guest Services for the "Pet Visitation at St. Charles" brochure before bringing your pet to the medical center. The brochures contain our rules and a release form that must be completed and turned into your caregiver.
