

Continuing Medical Education Jan-Feb 2018

Grand Rounds

*Fridays from 7:00 am—8:00 St. Charles Bend, Classrooms C & D
and broadcast live via videoconference to Madras, Prineville, Redmond, Burns, John Day & Lakeview*

January 5, 2018 No Grand Rounds (winter break)

January 12, 2018 "Stroke through the Ages" Steven Goins, MD, Pacific Crest Neurology and St. Charles Stroke Program Medical Director

Objectives: 1) Identify the physiology of cerebral perfusion in infancy and discuss how this has impact on the occurrence of stroke in later life. 2) Recognize causes of stroke in childhood and young adults and discuss how these disorders continue as stroke causes throughout life. 3) Address economic impact of stroke in Oregon and nationally 4) Address the changing incidence of strokes in young adults and the implications for the future.

January 19, 2018 "Minimally-Invasive, Non-Opiate Treatments for Chronic Pain: New Frontiers in Neuromodulation" Robert Heros, MD, Spinal Diagnostics Tualatin, OR **Objectives:** 1) Understand the differences between nociceptive and neuropathic pain 2) Identify patients presenting with complex neuropathic pain including Complex Regional Pain Syndrome 3) Identify indications for neuromodulation 4) Know how and where to refer these patients for appropriate treatment

January 26, 2018 "Principles of Conservative Prescribing" Gregory L. Holmquist, Pharm.D., CPE, Palliative Care Strategies, Everett, WA **Objectives:** 1) Think beyond drugs (consider nondrug therapy, treatable underlying causes, and prevention); 2) Practice more strategic prescribing (defer non-urgent drug treatment; avoid unwarranted drug switching; be circumspect about unproven drug uses; and start treatment with only 1 new drug at a time); 3) Maintain heightened vigilance regarding adverse effects (suspect drug reactions; be aware of withdrawal syndromes; and educate patients to anticipate reactions); 4) Exercise caution and skepticism regarding new drugs (seek out unbiased information; wait until drugs have sufficient time on the market; be skeptical about surrogate rather than true clinical outcomes; avoid stretching indications; avoid seduction by elegant molecular pharmacology; beware of selective drug trial reporting); 5) Work with patients for a shared agenda (do not automatically accede to drug requests; consider nonadherence before adding drugs to regimen; avoid restarting previously unsuccessful drug treatment; discontinue treatment with unneeded medications; and respect patients' reservations about drugs); 6) Consider long-term, broader impacts (weigh long-term outcomes, and recognize that improved systems may outweigh marginal benefits of new drugs).

February 2, 2018 "New Peanut Allergy Prevention Guidelines Starting In Infancy" Ronald A. Simon, M.D. Head, Allergy, Asthma and Immunology Adjunct Member, Department of Molecular and Experimental Medicine The Scripps Research Institute, San Diego, CA, Assistant Clinical Professor of Medicine and Pediatrics **Objectives:** 1) Pathophysiology of peanut allergy 2) Diagnose and test for food allergies, including peanuts 3) Discuss the history of peanut allergy treatment in America 4) New LEAP Guidelines

February 9, 2018 **TRAUMA** "Surgical Lessons Learned During the Vietnam War and (24 years later) the Persian Gulf War" Harley D. Kelley, MD, Assistant Professor of Surgery, OSHU, retired, active duty general surgeon in both wars **Objectives:** 1) Discuss key concepts of forward casualty care in the military, including a fast forward surgical unit. 2) Identify key differences between urban trauma care and combat trauma care. 3) Discuss how military experience may be applied in the civilian patient population.

February 16, 2018 "Intraoperative Neuromonitoring (IONM): How and Why" Jon Tippin, MD, FAAN, FACNS; Specialty Care partners for life, Nashville TN **Objectives:** 1) Develop a basic understanding of IONM techniques and procedures 2) Determine the predictive value of intraoperative changes in IONM data 3) Apply this information to help determine which surgical procedures would be appropriate for monitoring

February 23, 2018 *To Be Announced*

Clinical Conferences

Cardiac Clinical Heart One Conference (STEMI: Hospital ED Door to Reperfusion) 1st Tuesday of every month at 7:00 am Classroom C&D St. Charles Bend, live broadcast to Madras, Prineville, Redmond, Burns, John Day, Lakeview

Gastrointestinal Pathology Conference (4th Tuesday of even months) at 7:00 am location varies St. Charles Bend

Hematology Conference 1st Tuesday of every month at 5:30 pm location varies St. Charles Bend

Multidisciplinary Breast Conference followed by Cancer Clinical Conference (Tumor Board) each Wednesday at 7:00 am - 8:15 Location varies St. Charles Bend, live broadcast to Redmond, Prineville

Neuroradiology Conference 4th Tuesday every month at 7:00 am location varies St. Charles Bend

Stroke Clinical Conference Thursday, Feb. 1 at 7:00 in conference room C.

Other CME

ACLS Courses and PALS Courses (go to www.stcharleshealthcare.org/Professionals/Certification/Courses)

Internet Point of Care CME (Call CME office for detail)

Journal Clubs (Emergency, Hospital Medicine, General Surgery) (locations and dates vary) (Call CME office for detail)

Central Venous Catheter Placement Arterial Line Insertion and Continuing Care February 15, 2018 | 6:00 pm—8:00 pm St. Charles Bend : Classroom B
REGISTER: Contact Karen Kruger, Procedural Skills Program Coordinator 541-706-2605 or email: kmkruger@stcharleshealthcare.org. *Space is limited.*

Questions: CME or Clerkship Program? Call Sheila Jordan MGMT, CHCP, Manager of CME 541.706.6780 or email ssjordan@stcharleshealthcare.org
